TO THE QUARTERLY MEETINGS

OF WEST LAKE AND YONGE STREET.

(NINE MONTHS REPORT.)

The Committee having charge of the **Boarding School** *report that,*

The Girls' School has been continued through the year,—the Boys' only a part of the time, owing to the absence of the Teacher.

The School has been visited by a part of their number monthly, and they have viewed with satisfaction the improvement of the pupils in their studies. John and Clara White have been again engaged as Superintendents. Geo. W. Holway of Sandwich, Mass., and Maria A. Ellison, of Dutchess Co., N. Y., are engaged as Teachers.

Having at this time investigated the affairs, and taken an inventory of the property of the School, we find,

Of the Donation of £50 sterling, received from Friends in England, for 1849, only a small part has been expended.

The total number of scholars during the nine months was 79; whole No. of boarders 55; of these 22 were boys, 33 girls. Average No. of girls, boarders, 20 1-4, of boys 14 1-2.

The Fall Term will commence on the second day after the second First day in 10th mo., preceded by a vacation of three weeks. It would be much for the interest of Parents to have their children commence at that time, and for those attending in the summer, to commence so that their time may expire at the close of the term.

By order of the Committee.

WILLIAM GARRATT, *Clerk.*
